

# ALUMNI SPOTLIGHT

## ELI APPLEBY-DONALD

ALUMNA - MSC DIGITAL EDUCATION

*Eli has been working for 10+ years in the instructional design field in government and private sector organisations.*

“ [The programme] massively **impacted** the work I was doing and the **success rate of projects**. Being **able to formulate conversations** that fitted the [academic] audience I was speaking to reduced the previous friction/work/effort involved for me in a role that can sometimes be contentious in itself. ”

“ I, personally, felt like studying Digital Education gave me more "cred", and I felt that my academic colleagues took note of it in a way where **I felt "seen"**. ”

“ [The experiences you will make on the programme are those that you] may even **change** how you **teach, design, or experience education**. ”

**Apply now**
