

# STUDENT SPOTLIGHT

## MAI NGUYEN

STUDENT - MSC DIGITAL EDUCATION

*Mai has been a teacher since 2020. Finding herself falling into a pattern of repetitive activities with limited insight into effective online teaching and learning, she decided to apply for the MSc Digital Education.*

“ I've learned a great deal about how **EdTech** works, its **business models**, the fundamental **philosophy of contemporary society**, and **how to design engaging online courses** that enhance student participation through games-informed learning. ”

“ My tutors and peers have been incredibly **kind, creative**, and **knowledgeable**, and I've gained so much from both the course content and the **inspiring people** in the program. ”

“ It offers a **solid foundation** in current and relevant theory, while providing ample opportunities to apply your learning in **real-world professional contexts**. ”

**Apply now**
