

MARION SMALLBONES

ALUMNA - MSC DIGITAL EDUCATION

Marion works in a knowledge management and solution innovation role for Education Development Trust, an international NGO that delivers large scale education reform programmes in Africa, Middle East and UK.

“Doing the MSCDE was one of the best decisions I have ever made. It was **hard work but worth it**. (...) I have no doubt that it contributed to me being able to move into my current role and work, which I love.”

“Every single faculty member I came into contact with was **open, welcoming** and **friendly** – from helping me with my application, to making sure I was supported in the first few months of the course, making an effort to understand my context.”

“As an international student based in the Global South, I was initially concerned that the course would be very UK-focused, but it wasn't at all – they are **very outward looking** and **internationally focused** in practical ways as well as in their theoretical perspectives.”
