

DR NOREEN DUNNETT

ALUMNA - MSC DIGITAL EDUCATION

Noreen is currently working as an Associate Tutor on the MSc in Digital Education and Tutor on the Digital Games, Play and Psychology of Learning, Course Design and Critical Issues in Education courses.

“ [On the programme] there was a real focus on digital culture, digital environments and game-based learning and **much more scope for creativity** rather than a utilitarian professional qualification.”

“ There was a real sense of **community** even though the cohort was scattered across the globe.”

“ Late in my life (I'm 64 now) **I have achieved something I had always dreamed of** but never thought possible - an academic career (...) and the opportunity to write and have a book published. I am incredibly grateful for these opportunities which began with the MSc programme back in 2012.”
